

Transform your labeling to turn hidden costs into visible savings

Label Management System

Manage quality and security of labeling to decrease risks and hidden costs.

The NiceLabel Label Management System standardizes your entire label printing process into one platform. It includes everything you need to transform your labeling processes.

Deployment options

SAAS / CLOUD

Label Cloud is a public cloud edition of our label management system. It is multi-tenant and hosted in the Microsoft Azure cloud. It is our out-of-the-box service that requires no IT infrastructure, installation or IT support.

PERPETUAL / ON-PREMISE

LMS Enterprise is an on-premise edition of our label management system that is hosted on your own IT infrastructure.

REDUCE IT COSTS

- ✓ Empower your business users to design and approve labels
- ✓ Integrate with your business systems using pre-built connectors
- ✓ Minimize IT support and infrastructure investments

Our customers typically get ROI in less than **6 months** from direct cost savings alone

REDUCE THE COST OF QUALITY CONTROL

- ✓ Digitally transform your quality assurance process with our document management system
- ✓ Eliminate the time your quality control people spend on paper-based processes
- ✓ Eliminate the cost of errors from legacy approaches

82% of our customers experienced cost savings due to error reduction

FASTER TIME TO MARKET

- ✓ Make label change requests faster and improve your customer responsiveness
- ✓ Eliminate error and unplanned downtime to ship products faster

76% of our customers say they have reduced time-to-market

The 4 elements of the Label Management System

LABEL DESIGNER

The NiceLabel designer delivers a familiar Microsoft Word-like user experience that enables anyone to quickly design labels. It moves label design out of the IT department and into the hands of business users.

The Label Designer provides:

- ✓ Improved speed and flexibility in making label changes
- ✓ Streamlined compliance with regulatory requirements
- ✓ Faster global optimization and expansion into new markets
- ✓ Improved customer retention and new customer acquisition

MANUAL PRINTING

With our web printing system, you can centrally deploy and manage all manual printing applications to multiple sites, locations and third-party suppliers, contractors and vendors with a single click.

- ✓ Instantly deploying consistent applications and labeling while reducing IT costs
- ✓ Extend standardized labeling to suppliers to avoid relabeling at goods receiving
- ✓ Immediately roll out label and application updates across all locations without IT assistance

DOCUMENT MANAGEMENT SYSTEM

Think of it as SharePoint for labeling. Design, review, approve and control labeling from a centralized database without having to install software on workstations.

- ✓ Secure centralized storage eliminates duplication
- ✓ Automatic document versioning provides transparency
- ✓ Template consolidation leads to more efficient operations
- ✓ Unique indexing and search help reduce duplications
- ✓ Secure, electronic approval workflows prevent unauthorized changes
- ✓ Label comparison provides quality assurance
- ✓ Role-based access control ensures a secure labeling process
- ✓ Printer management and alerts help you avoid unplanned downtime

INTEGRATED PRINTING

Integrate label printing with SAP or other business systems to increase label accuracy, printing efficiency and establish a 'single source of truth' for your labeling data.

- ✓ Ensure accuracy and efficiency by interfacing with the master data
- ✓ Build integrations without any coding with the Intuitive graphical integration builder
- ✓ Integrate seamlessly and quickly with SAP using NiceLabel ABAP package
- ✓ Triggers that accept data from any protocol enable integration with any existing system
- ✓ Filters that integrate with all modern and legacy data formats so you don't have to customize your existing business applications
- ✓ Actions for building business rules and workflows allow you to easily adapt business logic
- ✓ Optimize printing performance and efficiency with the next-generation 64-bit print server

Designers

Quickly design and print barcode labels without IT help

NiceLabel Designers help you quickly design labels and create an efficient printing process. Quickly produce professional labels without making investments in training and coding.

Design interface

Operator printing interface

DESIGN MODULE

Our label designer makes it easy for anyone to design labels. It's packed with graphical design features that enable users to create labels in minutes, no coding skills or training necessary.

- ✓ Design customer-specific or regulatory-compliant label templates in no time
- ✓ Familiar, Microsoft Word-like user experience requires minimum training and IT skills
- ✓ Pre-designed templates accelerate your design process
- ✓ Universal template can be used with any type of printer
- ✓ Support for multiple languages
- ✓ Fast and simple database connectivity (Excel, Access, SQL Server, Oracle and MySQL, OLE DB and ODBC)
- ✓ Built-in functions to automate creation of label information, such as serial numbers, expiry dates, etc.

PRINT MODULE

Printing the right label template with the right data is business-critical. Our label printing module makes it easy to avoid human error and print accurate labels every time.

- ✓ Everything you need to print in one form
- ✓ Locked templates prevent errors
- ✓ Print preview enables the operator to check all information before printing
- ✓ Responsive form layout allows for greater flexibility

Other products

Streamline your labeling and improve print productivity

Eliminate printing errors by adapting the printing interface to the user and process or by integrating labeling with your existing applications and master data.

POWERFORMS

Businesses can significantly reduce manual printing effort and achieve new levels of accuracy and control by using PowerForms' unmatched on-demand print capabilities. PowerForms' features empower business users to create custom printing applications, streamline complex printing processes and eliminate errors.

- ✓ Prevent printing errors
- ✓ Simplify the print process for non-skilled workers
- ✓ Streamline complex printing processes
- ✓ Maintain label integrity
- ✓ Minimize manual data entry
- ✓ Responsive, touchscreen-ready interface

AUTOMATION MODULE

Automation empowers you to streamline complex printing processes, eliminate errors and improve print productivity. Integrate printing with existing business systems and hardware devices such as PLCs or weight scales.

- ✓ Integration without coding
- ✓ Works with all printers
- ✓ Data mapping
- ✓ Unmatched performance and reliability
- ✓ Business rules for maximum flexibility

Professional services group

Let us help you transform your labeling

We recognize that labeling is a critical part of your business, and that your labeling system needs to meet your business' unique system, business and regulatory requirements. NiceLabel's Professional Services Group (PSG) is a team of trained industry professionals who offer services tailored to your company and industry. PSG works with you to ensure your system is configured and implemented according to best practices. They are here to ensure a smooth, efficient transformation of your labeling.

Software Maintenance Agreement

Avoid unplanned downtime with our Software Maintenance Agreement

The NiceLabel Software Maintenance Agreement (SMA) offers enhanced support and free software upgrades to NiceLabel customers. There are two levels of SMA support designed for customers of any size, and in any geographic location. Regardless of level, the NiceLabel SMA ensures that you have:

- ✓ Priority access to NiceLabel technical experts who will work with you to quickly address issues and minimize interruptions to your business.
- ✓ Free software upgrades, ensuring that you have the latest technology at your fingertips and a lower total cost of ownership.

www.nicelabel.com

NiceLabel is a leading global developer of label design software and label management systems that help companies of all sizes improve the quality, speed and efficiency of their labeling, while reducing cost.

With the help of our label management systems, organizations are able to digitally transform their entire labeling process, from design to printing to label management. The result is a leaner, more agile operation that enables companies to respond more quickly to changing market conditions and requirements, get products to market faster and compete more effectively in the sectors where they do business.
